EMBRACE WIGAN & LEIGH

We are a user-led charity dedicated to supporting disabled people and their families. We have a range of projects that aim to enhance the lives of the people we support.

Our mission is to ensure that all people with disabilities feel valued, are included and have real choice.

We believe that people with disabilities make our communities a more diverse, interesting and worthwhile place to live. That is why everything we do is about ensuring all people are included in their local community.
